**You could forget
it all — downtown.**

Gulp a beer,
ogle some legs,
groove awhile.
Forget the diploma factory
up the street
and get some real food —
ummmm — pizza —
with anchovies, and
sausage and pepperoni
and a little, uh-hh, dirt.
Slosh that old 3.2 down
and maybe
you'll get another piece
of — uh-hh — pizza.

**Downtown
came to life
with new ideas
of young
merchants.**

Once a drab place . . .
known only for bars
and TGIF on Fridays
. . . downtown has
come to life.
Students are merchants
now, selling everything.
. . . leather shops, bookstores,
clothing boutiques, antiques,
junk, hand-made stuff
and odds and ends . . .
New life, new
excitement . . . a new
spirit in our town.

**No magic bus
traveled through Kent
this year.**

A place of idle time,
a way to get there
and maybe back again;
to the next class,
to downtown,
back to the dorm.
No time
to make a friendship
or start a conversation
as faces change so rapidly.
Stare out the window
at passing lives,
blurred and faint.
You can ride a mile
or a whole day.

We, an elite minority, have the right
We alone know the truth
We will speak; you will listen
— for your own good
We will dominate; we will rule
— or destroy you.
We, an elite minority.

In the Year of the Pig the middle of the road became a no-man's-land.

"The streets are in turmoil. The universities are filled with students rebelling and rioting. Communists are seeking to destroy our country. Russia is threatening us with her might, and the republic is in danger. Yes, danger from within and danger from without. We must have law and order . . . law and order . . . lawandorder!

**Theatre came alive
with a
world premiere
at Kent State.**

Create: a melody, a character, a situation.

Design: a costume, a scene, a mask.

Direct: an actor, an orchestra, a cast.

The end product? A world premiere; a spring or summer repertory company; a playbill crammed with entertainment.

— All in a Year's work for theatre people at KSU.

I AM OZ, THE GREAT AND TERRIBLE. WHO ARE YOU?

I am the small and the meek, looking for a way back to Kansas.

WHY HAVE YOU COME HERE TO MY CITY OF EMERALDS?

Because I wanted to see what you look like and what you can do. Because I thought you might help me find my way back or maybe my way to some other place. Because, hell, I like a good kick as much as the next guy.

THEN YOU MAY SEE ME IN MANY FORMS. TO SOME, I APPEAR AS A BEAUTIFUL LADY; TO SOME AS A BALL OF FIRE. WHAT FORM WOULD YOU SEE?

I don't know. Whatever form I choose, how will I know you will help me?

I WILL DO NOTHING UNTIL YOU PROVE YOURSELF WORTHY. CHALLENGE THE LAW OF THE WITCH OF THE WEST AND DEFY HER.

Well, OK. I guess, OK. I want to get back to Kansas very badly. And I like excitement and a good kick just like the next guy, just like my friends.

COME CLOSER, THEN. I AM OZ, THE GREAT, THE TERRIBLE, THE BEAUTIFUL, THE MYSTERIOUS, THE UGLY, THE DANGEROUS, THE KICK. STEP CLOSER, CHILD.

to play THAT SONG that finally
suckered you into your
first love.

An entertainer lead us back along the road to childhood

Tell us a funny story, Mr. Cosby.
 Big Bill —
 little willy
 — the man with the back door to yesterday
 who tells
 children's tales in grown-up language for
 children and kids tales that adults understand
 ... remember?
 teach us to laugh now at those things
 that scared us blind
 or we looked at and never quite saw
 ... once.
 make us howl and roll in the aisles at
 something that pop would have
 smacked us for
 ... yesterday.
 bring back yesterday mr cosby
 let me hold it in my hand and return
 with you to
 the innocence of childhood.
 that's the biggest joke of all
 ... mr cosby.

Of course it
RAINED
and the floats —
floated past the Hood.
But the wet-blanket
rain was just an
aftermath to a night of
Ormandy, and
a prelude to Sahl
and Mendes and Country Joe
and the Fish and Blood,
Sweat and Tears.
And though it rained
on our parade,
this Day was the best yet.

Exercise physiology is concerned with the body's reaction to exercises, the improvement of working capacity and its effect on coronary risk factors . . . in Physics the studies range from the liquid crystal experiments to problems in pulsed and continuous nuclear magnetic resonance methods, Mossbauer spectroscopy, cryogenics and X-ray techniques . . . Psychological research involves human and animal learning, clinical, developmental and social psychology quantitative methods, sensory processes and preception.

and you run run run while

Soccer

Yes, we have a soccer team, a damn good one. So what if the MAC doesn't recognize soccer as a varsity sport? Maybe the soccer team doesn't recognize the MAC.

Record? Sure, a 4-5-1 record.

Put us with OU in first place in the unrecognized MAC.

Held seventh in the state for three weeks, then we only dropped back to ninth.

You wanta see a great player — Nick DiGrino — our goalie. Marvelous!

He never started playing soccer until his freshman year at KSU.

Rugby

 TO SCORE

Swim . . . like your life depends on it
for a first place trophy depends on it
and the hours of practice seem like a lifetime

this dive. . .

and the crouch at the block
and the climb to the board . . .
are manifestations
of a stomach-knotting
wait that never ends

— is only suspended

'cause when the reach for the water is past
all that's left
-win or lose-
is the sound of heavy breathing
and the knot in your stomach.

Swimming

Basketball

A rough year for our team — with internal struggles and external criticism heaped on them, they played — and though they stayed in the cellar, Lagodich made his “1013th” and the rest of Truitt’s boys tried their very best.

When it comes down to whether or not
you can actually do it
— don't ask the team
... they're your friends;
— don't ask Begala
... it's too late;
— don't ask your opponent
... he's wondering, too;
they're all asking you that same question
NOW
without a team to cover your mistakes,
without a chance to call "Time"
without anyone else to blame.
And if you're good
and the ref is fair,
when his hand hits the mat for the third time
and the crowd on its feet roars your name
you can answer that question for yourself.

Wrestling

Gymnastics

Beauty . . . an unfamiliar word to sports, but in gymnastics an essential component.

Perseverance . . . typical of all sports, but seldom thought of in connection with beauty.

Competition . . . the basis for all sports, but usually team against team.

Independence . . . found in some sports, provides no team to back you; you're on your own.

Gymnastics . . . beauty, perseverance, competition and independence.

Love is a game for two—
Soft summer and splotches of sunlight;
sunburn and crow's feet from squinting;
Catchbreath smiles and a good-swinging
Serve.
A serve, you say?
Love is tennis. a game?

Tennis

Cross country is one thing; track another.
Track requires skill as well as personal training.
Sure you run. There's the 440, the 880, the mile.
But there're other events. There're jumps:
the running broad, the standing broad, the running
high and the standing high. There's shot put.
There's the javelin.

Every one of these events takes just as much
training as any one other sport. You can
specialize in one event, but you usually
participate in more than just one.

The events you participate in you do well, or
you just don't participate in track.

Track

Baseball

Think of baseball this way:

the computation of the trajectory of a sphere and the approach of a tube so that an intersection will occur and the resulting angle of incidence will give an angle of reflection with a vector force capable of another trajectory to carry the sphere far enough to an area unprotected by an opponent's team member.

The opponent's team member then retrieves the sphere and returns it with another trajectory to a second opponent team member before the man making the original computations is able to propel himself a total of 360 feet, making three 90 degree turns.

That's quite a baseball team, isn't it?

DORMS

Prentice

A minor melting pot, combining the qualities of young women from all over the country, mixed carefully for three quarters of an academic year, that's PRENTICE. Flavored slightly with Fugs records . . . Tom Jones posters . . . multi-colored love beads . . . and Mod Squad on Tuesday nights in the lounge. Color? The most natural in the world: blonde to brown, red to black. And some not so natural. A building, no, a binder for all its inhabitants.

Verder

Individuality . . . to VERDER women means time set aside to do their own thing. Spirit . . . to Verder women means a first place for their Campus Day float and second place for Song Fest. Togetherness . . . to Verder women is the Annual Miss Witch Contest, the Verder Chorus and the Christmas Corridor Contest. Goals: future individuality, spirit, togetherness and the Bowman Cup.

Dunbar

The king of dormitories, DUNBAR, reigns over a feminine kingdom. Dunbar men exchange window glances with Prentice, serenade Verder and snitch ice from Terrace. Dunbar fought to remain number one on campus this year. The dorm took first place for its Christmas light display and a top award for its Homecoming "argyle sock." Broadcasters, accountants and bandsmen join for football at the infamous "Nixson Hall Memorial Field."

Engleman

Noisy pipes that creak, bang and hiss . . .
 losing the tunnel to the union . . .
 peanut butter and Carson's . . .
 the weekly laundry flood and boiler leak . . .
 the winding staircase . . .
 the one and only octagonally-shaped room . . .
 a goldfish pond and squirrels and chipmunks
 playing on the ivy . . .
 the "Old Hotel" that every girl who lives there
 falls in love with . . .

Stopher

New closets, the American Cancer Society, Angelo Litrico and panty raids — just a few of the things that set STOPHER apart from all other residence halls. Not so much of a S.L.U.M. as it once was, Stopher houses some of the most enthusiastic men on campus. Fighting the meter-maid parking ticket system and building a Homecoming float with Verder that featured Grog and a fry pan were two of this year's projects. Insane and hilarious, funny and friendly, the notorious "bad guy," but the nicest of all — Stopher.

Olson

The "other half" of Lake, OLSON, is "one of the best situated dorms for the women of KSU." Window-decorating is a major occupation for Olson women, for if they are not painting them to win a pizza, or trying to see past the frost of winter, they are storing panties, pop cans, Tang bottles, snappy slogans or parking gates there.

Johnson

Initiating weekend visitation, JOHNSON continues its policy of "unique" traditions. These men can be seen sprinting through the fourth floor of Lake during panty raids, frolicking during their famous beer blasts or saluting their flag-less flagpole.

Their honors include first place in the men's independent division in Pork Barrel and second place in men's residence hall scholastic averages during winter and spring quarters. They sponsored a day on campus for children from the Summit County Children's Home.

Lake

Motion . . . activity . . . people . . . a place to meet practically everyone: LAKE.

Listen to the jumble of a million voices in the lounge and — the grumble of visitors. Lake women raised money, hamsters and sometimes, a little hell. They have fought Kent Interhall Council, painted windows to win subs and finally accepted the fact that they are "Johnson's women."

Overlooking Main Street, TERRACE displays multicolored windows to passersby. Sunning, studying on fire escapes and collage-making pass free time for Terrace women. According to Terrace-dwellers, their dorm is one of the largest female halls on campus whose main purpose is "to make itself one of the greatest places to live." The dorm holds Interhall second place in Pork Barrel and has beer blasts and hootenannies.

Terrace

Manchester

The "active" lounge; stolen furniture;
broken everything . . .
the Ford Falcon car that was painted brown and
orange and pushed with a police escort to
a resting place
in the mud . . .
walking over bodies in the halls; around and
through passionate conversations . . .
football on the lawn; intramurals of all kinds in the
hall with the "presidential corridors."

Fletcher

No water; kites flying; sultry, summer days on the
 spied-upon sundeck . . .
 all-out war with Manchester; frantic mud fights;
 being serenaded . . .
 men jumping out of the lounge fireplace during
 a dorm meeting . . .
 getting new furniture after total destruction of
 the old . . .
 three feet of water on the floor; an entire dorm
 busily blowing up balloons for Homecoming . . .
 spirit . . .
 freshmen . . .
 FLETCHER.

Clark

Floor studying . . .
beer can stacking . . .
watching TV and Allyn women . . .
Discussing everything . . . generally bull . . .
playing pool, cards . . .
dancing and drinking at Eastway orgies . . .
and just living
in CLARK.

Allyn

Painting windows and intramurals are just two of the activities of ALLYN women. Together, these dynamic women hung balloons for their Homecoming display, placed first, all-campus, in Songfest and second in Pork Barrel. The overwhelming spirit generated by these accomplishments radiates from Allyn.

Korb

Who says single women can't have more fun? The women of KORB, leaders in spirit, do. Residing in "Claudia's Convent" they carry away trophies, portraits of Mona from Fletcher and the Miss Ugly title of KSU.

Korb is a center of activity, sponsoring intramural sports, a carnival for underprivileged children, and winning the All-university and residence hall trophies for Campus Day. All this wrapped up in a "New Korb Times" newspaper is Korb . . . spirit . . . work . . . and winning.

Moulton

As the oldest dorm on campus, MOULTON'S slogan is "If it's collegiate, they do it in Moulton." These notorious men, living in this former female residence, have favorite spots, such as the fireplace and the back porches where they study, sit and attract the attention of passersby. Some of the rooms have tubs, much to the dismay of all, while the peeled ceilings and visible pipes become catch-alls for posters, clothes, and almost everything. Doors to rooms seem to be artistic expressions, for the competition among all for the catchiest phrase and the most appropriate picture is keen. If it's collegiate, it really is done in Moulton.

Van Campen

VAN CAMPEN is one of the first small-group complexes, built in 1967. It houses only 64 students, which allows each student to participate on the various dorm committees and fosters mutual co-operation. Van Campen sponsors an annual Halloween party, hayrides, the Spring Recognition Banquet, picnics and Ye Old Apple Polishers.

Heer

Numbering 120, the residents of HEER struggle along in their now not-so-far-out hall. They hold barbecues, movies, beer-blasts, hayrides and off-campus parties with the rest of the Small Group I. Two of their unique attractions are the portraits of each of their residence counselors and Ronald Parker.

Combine easy living with studies and the result is HARBOURT, one of two male dorms in Small Group I.

Activities include beer-blasts with Van Campen and finals week study breaks.

Harbourt

Musselman

Being the only dorm that has an annual field day, whose trophy is aptly called, "The Musselman Cup," is a distinction that only MUSSELMAN can enjoy. Advocates of happy hour, Mussel-men have pizza parties, dorm tutors, and usher for the Artist-Lecture series. They boast the highest freshman grade point on campus. Built in 1968, Musselman's distance from the rest of campus is the only thing that separates it and makes the dorm a world in itself.

A member of Small Group II, HUMPHREY was dedicated in 1968, and has done much in its short time as a dorm. Women of Humphrey helped Musselman men construct a float for Homecoming — a 10-foot beer can inscribed "Bomb B.G." They were overall champs in the "Musselman Cup" competition, vying for the titles of "complex cutie" and "musical water champion."

Humphrey

Altmann

Trying to do away with their title, "The Leper Colony," involvement has been the aim of ALT-MANN. The dorm sponsors an Easter party for welfare children. Altmann won the KIC all-campus scholarship award. An over-all enthusiasm characterizes the hall.

Stewart

STEWART is one of the new residence halls in Small Group II, dedicated this past year. The small number of women in Stewart allows each of them to know more of their dorm-mates. They sponsored a beer-blast for all the Small Group dorms. Future plans include another beer-blast, a "Homecoming Happening 27," and a Sadie Hawkins dance.

Apple

Student government business highlighted the past year for APPLE. It culminated with the adoption of their first constitution. Activities for this Small Group dorm included beer blasts and intramural sports. The hall was dedicated in the fall amid signs and posters made by residents.

Dorm life with a new flavor: the meeting of different cultures. MUNZENMAYER attempts to introduce its residents to another country and yet retain the feel of home.

From the time of the spirited dedication of the dorm this fall, men have attempted to relate to other men and find a world friend rather than a political opponent.

Munzenmayer

Metcalf

A freshman on campus, expecting to outstay the normal four years.

A friend to its own and theirs.

A defense from the natural.

A society for the needs of many.

A home, when not at the home away from home.

McSweeney

McSWEENEY, the international women's dorm, is one of the newest residence complexes. The women of McSweeney have filled the hall with decorations from their home countries, but have assimilated Kent State "culture," too, sponsoring beer-blasts, Halloween parties and an annual Christmas party.

Twin Towers

Overlooking Eastway Center, TWIN TOWERS is unique on the Kent State campus, being the only dorms to have combined their student government organizations. Beer parties, study in the snack bar and quiet conversations in the lounge characterize Twin Towers, once an experiment in coed living, now an institution at KSU.

Leebrick

LEEBRICK . . . Coed . . . fifteen men and women on each floor . . . Separated . . . by an impregnable wall and a locked metal door . . . Separate lounges . . . with separate elevators that never work . . . An air-conditioning system that cools only in the spring . . . Cracked walls . . . A modern experiment in coed living?

Rooms of . . . bare feet . . . rugs . . . posters . . . stereos and records . . . signs of all kinds. People who play that Sunday morning race of "run-around-and-clean-before-open-house." A building with . . . a space-ship elevator that is big enough to spend the night in.

Koonce

Wright

The loftiest men's dorm is WRIGHT, a "tower of strength." Instigators of mud fights and champion toilet paper throwers, Wright men prove their athletic prowess in many ways, including being tops in intramural dorm football and softball.

Wright holds an annual Halloween celebration and was the first dorm to own any of those "mysterious" pinball machines. Beer-blasts, movies and weekly gab sessions in the Browsing Room make Wright a place for "just plain living."

Tri-Towers

GROUPS

Karate Club

The KARATE CLUB was founded at KSU in 1968. The club's first year was an active one. During that year the club participated in eight tournaments and took eight first places, ten second places and nine third places. Six of these trophies were won by women. —Success equals dedication plus Jeung H. Kim.

Each spring an Industrial Arts Show is presented in Van Deusen gallery.

Collegiate Marketing

Taking a realistic approach toward the business world, the COLLEGIATE MARKETING ASSOCIATION sponsors the Marketing Simulation Games. This year, CMA hosted the Quaker Oats Super-Market Simulation Game. The organization's purpose is "to bridge the gap between the textbook atmosphere of the classroom and a realistic marketing environment and to present an informal atmosphere where students can converse with their professors, professional marketing men and other students to further the interests of marketing." CMA members planned to sell their marketing talents to local businessmen this year.

Gamma Sigma Sigma

GAMMA SIGMA SIGMA, women's service sorority, came of age as Beta Omega chapter of the national organization in June 1969. Gamma Sigma Sigma's purpose is "to assemble college and university women in the spirit of service to humanity." Working toward this goal, members do clerical work for the Hattie Larlham Foundation in Mantua, man polls at student government elections, visit the Hudson Boys School and help with Bloodmobile registration. The chapter sponsored the Ohio Valley Regional meeting of the sorority at Kent State on May 1 through 3.

DKS

THE DAILY KENT STARTER and its new format derived from a marriage of the designs of two other tabloids: "Newsday" and "Chicago Today" were the subject of a feature story in "Editor and Publisher," a national professional journal.

The paper took firm editorial stands against the war in Vietnam and urged students to participate in the Vietnam Moratorium peace-action in Washington, D.C., in November. The Stater also kept a sharp eye on the activities of Student Government as well as affording column space to all student and faculty opinions.

News coverage was expanded to include national and international news relevant to the campus. Manned landings on the moon and changes in the draft law received coverage.

The Stater was also host to the Ohio Collegiate Newspaper Convention in April.

As a national military honorary of advanced cadets, KSU's "M" Company, 8th Regiment is concerned with raising the standards of military education by spreading intelligent information concerning the military requirements of our country. Throughout the year, the cadets are involved in various activities, co-sponsoring the Military Ball, sponsoring a Winter formal, participating in half-time ceremonies and marching in local parades.

Angel Flight

What does it take to be a member of KSU's Angel Flight? An Air Force ROTC cadet might say, "a lotta good looks," but the women themselves know that dedication and plenty of hard work accompany the tailored uniforms. The women accomplish their primary goals of service to the university and community by ushering at sports events, assisting the Bloodmobile, serving as campus guides, sponsoring parties for underprivileged children, visiting homes for the elderly and veterans' hospitals and working at the Hattie Larlham Foundation in Mantua.

Veteran's Association

The word "doers" has been used this year to describe the KSU VETERAN'S ASSOCIATION. Now in its third year, the organization has evolved from a mere social group to a more dynamic organization involved in campus and community affairs. Original goals of the group were to aid the veterans on campus, sponsor intramural teams, and hold dances, parties and spaghetti dinners. Additional goals now include an interest in social projects such as busing disabled veterans from the Cleveland Veterans Administration Hospital to Kent for a Saturday football game. Following the game, residents of Fletcher Hall and the girls of Delta Gamma joined the men for dinner and a social hour.

While correlating their respective duties, the organizations represent the residence halls as a unit comparable to any other representative body on campus. They sponsor Residence Hall Week and other all-dorm activities.

Executive Branch

Yep, this is them. These are the people who are written about in The Stater and depicted in the cartoons. They're controversial, but that's only because they are in such high positions. The guy with the glasses is the head man. His name is "Frank." He's President of the Student Body. Together, this group, the EXECUTIVE BRANCH of Student Government, work to effectively represent the desires and opinions of all students. Not only that, but even though there's been so many jokes about them, and so many problems come up, they haven't done a bad job.

Every member of the WKSU RADIO staff plays an important part in every program that goes out on the air, and it's not just a one-time affair. It's done every day.
