| ***** | AMOS | $1,270.00 | Perpetual | 50 | 0 | 10 | January 1, 2010 |

* Mplus license renewal was dropped in December, 2008 due to extenuating circumstances. Muthen & Muthen (the vendor) is willing to renew the license at this time with no late fee. Unfortunatley, there is no money for the renewal in the budget. Six departments original asked for the license with 37 interested indviduals (including 12 lab copies in Psychology). The license was purchased for $30,000 (with a 50% discount) for 60 seats. 37 copies have been purchased and 23 seats remain. However no seats have sold in over one year.

** No copies have sold in 15 months.

*** 1 copy has sold in the past 15 months. It was purchased over a year ago.

**** We were able to free up seats from a departmental lab. 2 copies will be placed on computers in the Library Alcove Lab. One copy will be reserved for laptop loan. 12 copies will be sold to the individuals on the waiting list. The remaining 6 copies will be for sale in AVS.

***** More copies of AMOS would likely sell if they were available. A consultant to the College of Nursing is giving a faculty workshop on AMOS in Nursing this summer. However, we do not presently have a waiting list.
