

Immediate Statistical and Qualitative Software Needs

Nvivo 8.0

- Nvivo is an annual license with present Annual Renewal Fee of \$12,000 for 125 licenses.
- Presently, there are 10 individuals on the waiting list. The list grows each time I give an Nvivo demonstration.
- Additional copies of Nvivo are estimated at \$96 per copy.

AMOS 17.0

Product	Number of Copies	<u>Annual</u>		<u>Perpetual</u>	
		Initial Fee	Renewal Fee	Initial Fee	Maintenance Fee
AMOS	10	\$3,034	\$1,567	\$5,055	\$708

Annual License – According to SPSS, this is akin to “leasing” the software. The initial fee allows an institution to obtain the software. A mandatory annual renewal fee allows the institution to continue to use it. The software is coded to expire each year unless the fee is paid. All major upgrades and priority tech support are included.

Perpetual License – According to SPSS, this is akin to “buying” the software. The initial fee allows an institution to obtain the software, but there are no mandatory annual fees. The software is encoded with a permanent encryption code. The maintenance fee is optional and allows the institution to obtain all upgrades and receive toll-free tech-support for 12-month periods.

We presently, have a perpetual license for 50 copies of AMOS with an annual maintenance fee of \$1,270.00. 10 copies of AMOS were sold in the 2008/2009 school year.
