

Transitioning to College: Helping You Succeed

Welcome to Academic Libraries

Talking to Databases

Tips for Research Success

Getting Help When You Need It

College: What to Expect

A great tool for students, teachers and librarians at both the secondary and college levels!

Transitioning to College (T2C)

A freely accessible collection of Web-based resources designed to help students prepare for college life and academic research.

T2C includes:

- Streaming videos
- Worksheets and handouts
- Glossary of academic terms
- Links to useful resources
- Tips for student success

Five streaming videos dramatize common college transition experiences, by following two first-year students, Jason and Emily, as they adjust to life in college.

Transitioning to College is an initiative jointly funded by the Institute for Library and Information Literacy Education (ILILE) and a Library Services and Technology Act (LSTA) grant. This site is supported by Kent State University Libraries and Media Services.
