

IPOD LIBRARY TOUR GUIDE

Welcome to the Kent State University Main Library. This tour will take you to almost every floor of the library, pointing out useful and interesting things as we go. Here's how it works: I will direct you to a location as clearly as I can, then I will say, "pause your player here," you pause your player, go where I send you and start listening again. We will talk about what you are seeing and then I will direct you to the next stop and I will ask you to pause while you travel and listen when you get there. This tour will take about 30 minutes.
