

October 1, 2020

Dear Colleagues,

I am writing to follow up regarding library collection review processes. The Phase I and Phase II lists have been updated and are available on the [Responsible Collections Reductions web page](#). We thank you for your feedback. Wherever possible we retained the resources you identified as priority for research and teaching.

Please be assured that despite these financial challenges University Libraries will continue to provide excellence in library services. Our [subject librarians](#) are always available to answer questions and assist in identifying needed resources. As members of OhioLINK we continue to have access to a multitude of statewide resources and for resources not readily available in our local collection we will provide [Interlibrary Loan services](#).

Do not hesitate to contact me with any questions you may have about the collection. We thank you sincerely for your support, and assistance in this process.

Best regards,

Kay Downey, Assistant Dean for Collections & Technical Services  
Associate Professor, University Libraries
