DIOCESAN OF YOUNGSTOWN ARCHIVES  
KENT STATE UNIVERSITY LIBRARY

ACCESS INFORMATION

The archive files of the Catholic Diocese of Youngstown are available to researchers who request certain information.

Permission must be obtained from the Chancellor's Office of the Diocese of Youngstown prior to setting an appointment with Kent State University Library to research the files. Permission may be granted for specific, legitimate requests for particular files.

Sacramental records of the parishes of the Diocese of Youngstown are not open for public research, whether these records are contained on microfilm or in the actual parish sacramental registers.

Researchers requesting copies of baptismal, first Communion, Confirmation, marriage or death records must request these records from the parish where that sacrament took place. The staff of that parish will provide the requested record. The sacramental records of parishes which are no longer in existence, and those of St. Philip Neri Parish in Dungannon, are kept at the Chancery Office. Copies of those records may be requested from the Chancellor.
